Angélica Aguilar

Frontend Engineer · React, TypeScript, React Native

Phuket, Thailand (UTC+7) · Open to remote · soyangelica.aguilar@gmail.com

Portfolio: soyangelica.com · GitHub: github.com/soyAngelica · LinkedIn: linkedin.com/in/angelica-aguilar-developer

Summary

Frontend engineer with 12+ years building for the web and 6 years shipping React and TypeScript products in production, from a health insurance mobile app to an enterprise SaaS newsletter builder. Experienced in React, Next.js, React Native, GraphQL, design systems and TypeScript migrations. Has led a platform build end to end, mentored developers for 6 years, and now uses AI-assisted workflows (Claude Code) to ship faster.

Technical Skills

- **Frontend:** React, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, MUI, Ant Design
- **Mobile:** React Native, Expo
- **State and data:** Redux, MobX, GraphQL, REST APIs
- **Backend (working knowledge):** Node.js, Express, SQL (PostgreSQL, MySQL), PHP, Python (basic)
- **Quality and tooling:** Jest, Storybook, design systems, TypeScript migration, Git, GitHub, Vite, Webpack, Docker
- **Cloud and deploy:** Vercel, AWS, Heroku
- **AI:** AI-assisted development (Claude Code), LLM-powered features
- **CMS and e-commerce:** WordPress (custom plugins, Elementor), Shopify, Webflow
- **Design:** Figma, Photoshop, Illustrator

Experience

Software Engineer, Web Platform & UX — WordTorque · Remote · Nov 2025 – Present

- Led the UX planning and information architecture of the platform with no designer handoff: turned a dense legacy website into a reusable component set (tabs, accordions, cards) that makes the curriculum content easy to navigate.
- Build and maintain the members platform of WordTorque, an education company: custom WordPress plugins, admin dashboards with school-level metrics, and content pages that non-technical staff edit without code.
- Turn requests from the education team into shipped features, from scoping to release.

Software Engineer — Meltwater · Remote · Feb 2025 – Jul 2025

- Built features for the Newsletters builder, the enterprise tool PR teams use to turn media coverage into branded email digests.
- Migrated legacy newsletter modules from JavaScript to TypeScript, improving type safety and making the codebase easier to maintain.
- Contributed reusable components to the design system with Storybook and MUI, and built features for the influencer marketing tools.
- *Stack: React, TypeScript, MUI, Storybook*

Software Engineer — XY Booster by Unicorn Series · Mar 2024 – Nov 2024

- Led the development of an internal digital-signature platform from architecture to release, owning technical decisions and coordinating a team of 3 developers.
- Built websites and web apps for 6+ startups in the accelerator program.
- *Stack: React, Next.js, React Native, TypeScript*

Frontend Engineer — Sofía Salud · Mexico City · Sep 2020 – Dec 2023

- Developed and maintained 4 production systems for a digital health insurer: the Sofía member app (iOS/Android), internal operations, an employer insurance admin, and a doctors' EMR platform.
- Shipped member-facing features in React Native such as video consultations, the medical network directory and reimbursements, in an app with 50K+ downloads on Google Play.
- Fixed production bugs and refactored legacy screens, making the apps more stable and easier for the team to maintain.
- *Stack: React, React Native, Next.js, TypeScript, MobX, GraphQL, PostgreSQL*

Earlier experience (2013 – 2020)

- **Freelance Web Developer** (2014–2020): websites, online stores and management systems for agencies and small businesses (PHP, MySQL, WordPress, Shopify).

- **Development Mentor and Curriculum Coordinator — EscuelaWeb** (2014–2020): designed web development diploma programs and mentored students.
- **Frontend Developer — Elefante Producciones** (2013–2014): responsive websites and web apps.

Selected Projects

- **Explain this** — AI-powered assistant that breaks complex instructions into clear steps, with translation and suggested next steps; built for neurodivergent users. *React, LLM APIs, Vercel*

Volunteering

- **Co-founder, Mentes Ambulantes** (2017) — Educational road trip, funded through crowdfunding, that taught technology and programming workshops to 120+ kids in 9 communities in southern Mexico and northern Guatemala.

Education

- **Web Application Development Diploma** — DEV.F · 2019
- **Political Science and Public Administration** (coursework) — UNAM · 2009–2010
